DEMOCRACY'S DAY.

Twonly Thomsand People Listen to Arguments for Tariff Referm to New York City.

Scoretary Patrebild and Speaker Carlisle are the Orators of the Occasion-The Subject of Their Orations.

A BIG DEMONSTRATION.

NEW YORK, Oct 13 - Everything was avorable for a big demonstration of Cleveland and Thurman down town businces men this efternoor, and the meetleg before the sub-freesury in Well street and the subsequent procession up town were fully equal to the hones of the managers The meeting was precided over by Jo-seph J. O'Donohuo, When Secretar, Fairchild arose he was welcomed with a rea of applauso.

Secretary Fairchild said: "When I have the honor of thus addressing you I feel I am speaking to the whole country, for you represent and are in touch with the business sed business men of every part of the Union. Westever is well for the men of Malar, of California, of Minnesote, of Texas and the Carolless, is well for you; and what is bad for you is ned for them. I know we are offented by our welfare is not the welfare of some parts of the country, but I have never been able to find resean to support this statement. Good consoniest government, prosperous business, safe correccy and low textilon are well for the whole country—are well for each and every part of the country One part of it cannot suffer in any of these respects without lostent communi-cation of the fill to every part."

The Secretary then went into the history and POLICY OF BOND BUYING

and depositing is national canbe, and gave figures showing the amount of bonds that had been purchased. He said: "Up to the lat of this October all of the 8 per cent bonds outstanding at the bogipning of this administration \$194 199, 500 had been retired, and in addition \$31,923,240 of 4 and 44 per cent. bonds at cost; or in all there has been applied to retirement and purchase of bonds \$290. 924,518; and the total interest bearing dets appearing in the September deal statement is under the \$1,000,000,000 mark, the first time in a generation that it has not taken ten figures to express it. By force of untoward circumstances the one of the most important factors in the country's business. It is not right that this should be the case and I believe that another term of Democratic administration with Congress pledged to support it in wise measures would result in such reform as substantially to eliminate the Treasury Department from your affairs, thus cuting an amormal condition which has within its possibili-ties a great injury to legitimate business and great wrones whenever the head of that depar ment maybbe unwise or un-faithful. It is not at all necessary that this condition should exist. It is THE MISSION AND DUTY

of the Democratic party to put an end to its In some quarters fear has been ex-pressed lest trouble should be caused when the government might suddenly withdraw its deposits. I can imagine no state of affairs under which it would be necessary to do this suddenly. The amount deposited is now about \$57,000, 000, and the government clearly shows that a Secretary of the Treasury need never surdenly call for this money or call for it in a way to cause embardeposit gave it "

When Mr Frirehlid finlaned

community for its own presperty upon the administration, and is prosperous the property of all others. I think this notwithstanding the parsistent efforts of is the case now to a greater extent than MANY INPLUENTIAL POLITICIANS ever before in our history. One of the to that expired and labor and drive most beneficial results of the last presi them out of productive industries by proparts of the country, and especially tory of this or any other country hav-between the people of the north and the such determined and depatricitic efforts intimate as it is now.
